**PURPOSE:**

To clearly define the responsibility and financial liability for the provision of vehicular crossovers to private property.

**POLICY:**

The Council is responsible for the care and maintenance of the drainage network adjacent to roads. Any person desiring to undertake work within the road reserve (drainage) area is required to obtain the approval of the Council. This also applies to vehicular crossovers where approval is required.

The adjoining landowner is responsible for all costs for any requested works, including crossovers.

**EFFECT:**

Property owners are not to undertake any works within the verge without the prior approval of the Council.

The cost of any works undertaken at the request of the property owner shall be at the property owners expense.
