*Fax:* 8978 5181

Please ring this number if you  
need health advice or information

## Belyuen Health Centre

Belyuen Health Centre is a nurse run clinic; the nurses have an extended scope of practice. The health service is staffed to provide services to the Belyuen community.

Belyuen Health Centre staff do visit the Wagait Beach Community Centre Clinical building for prearranged appointments for acute illness if you are unable to attend your normal Medical Centre.

Please contact the Belyuen Health Centre before 2:00pm on the day. The community centre does not have medications on stock so the nurses need to know your concerns prior to the visit.

**This is a bulk billing service.**

If you need to pay anything extra, e.g. for pathology, when you are referred to other doctors or specialists, the staff will tell you before you go.

## SERVICES PROVIDED BY BELYUEN HEALTH CENTRE
